

Autons

Start the robot in the pyramid with the harvester down, bring the discs when the robot shoots them into the disc run the rollers and drive into the disc underneath the pyramid keep driving to the next set and the shoot off into the 2 disc.

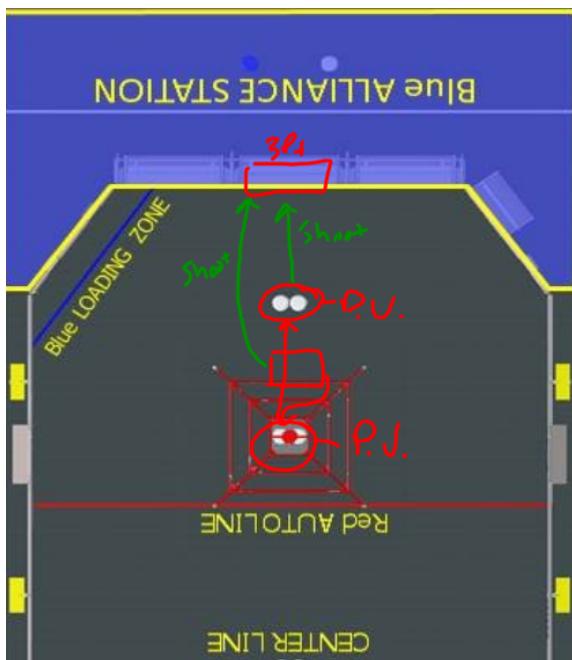

start at the back left corner of the pyramid
drive there into the 2 slots do a 180 turn leave
the harpoons in the back in the slots on the
car will be able to use these
disks until the match starts

Shot 3. Drive forward. Turn to 90 heading.
Drive forward to mid of pyramid. Turn to 0 heading
drive forward and pick up all 4 fishes. shot 4

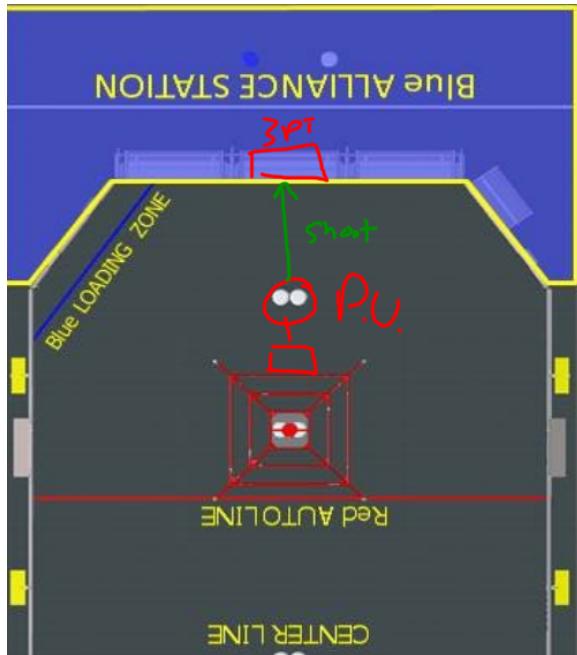

start at the autoline on the right side of the pyramid. Shoot the first three disks. then drive forward turn right run the rollers pick up the disks. turn to face the wall and shoot them at the three.

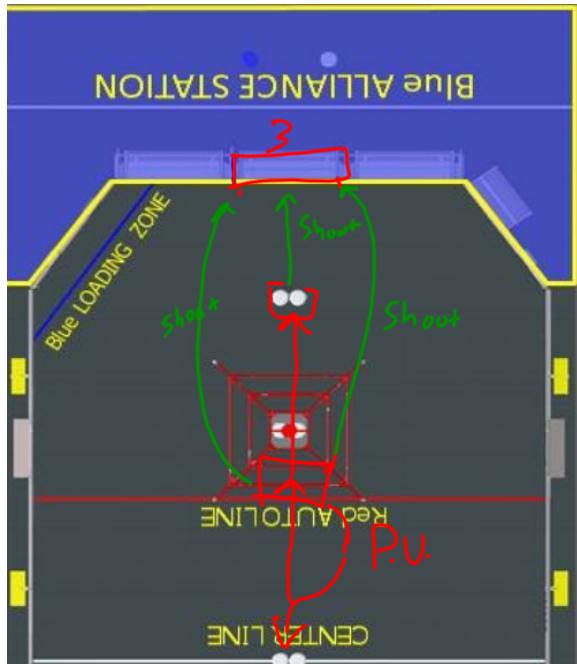

start in the middle front of the pyramid shoot two turn a 180 lower the harvester. drive into the two disks run the harvester to eat the disks. then turn 180 and drive towards the last set in the front of the field run teh rollers and eat those then shoot all 4 into the 3 slot.

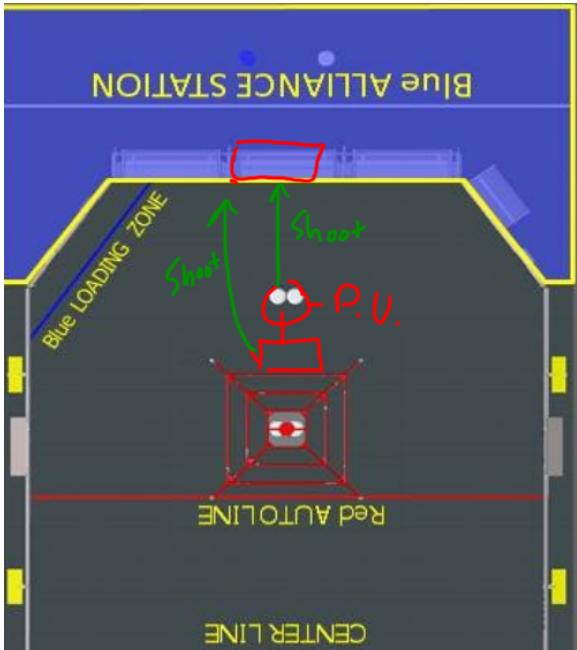

take original 3 dump
them in the one spot.

run harvester then drive
forward pick up 2 disks
then run shooter and aim all
four into the three pointer.

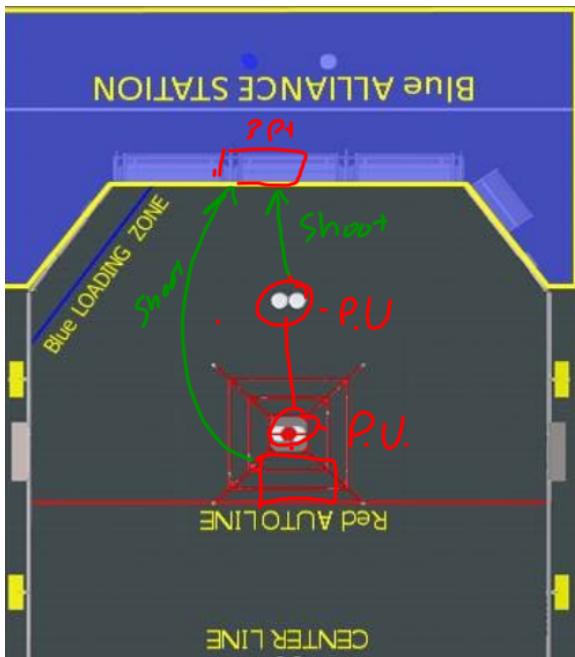

start at autoline touching pyramid in the middle run shooter to shoot 3 into the 3 slot. turn around lower harvester drive to frisbee's on the centerline while running the rollers. then turn again and drive to the center of the pyramid while running the roller, shoot four into the three slot then drive with rollers running to the last 2 and shoot them into the three slot.

run shooter to shoot two
frisbee's into the three
lower harvester
drive forward while running
rollers to collect two frisbee's

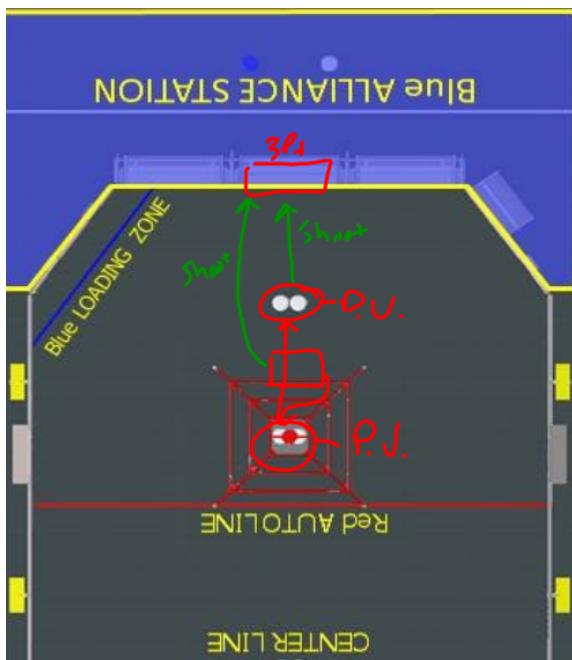

start at center pyramid touching the autoline with harvester lowered, shoot 3 into the 3 pointer, then drive with the rollers running under the pyramid to collect those and shoot them, next drive forward to the next set with the rollers still running and pick them up and shoot them into the three slot.

Start the robot in the pyramid with the harvester down touching the autoline. when the match starts shoot three into the then run the rollers and drive into the two underneath the pyramid keep driving to the next set and the shoot all 4 into the 3 slot.

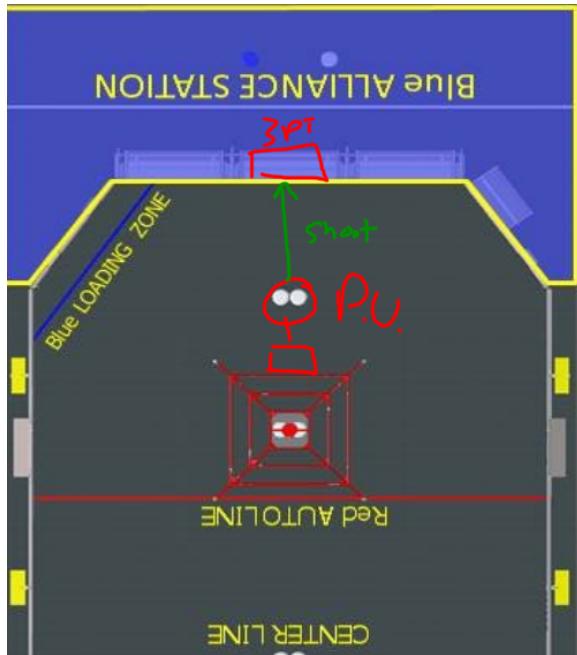

start at the autoline on the right side of the pyramid. Shoot the first three disks. then drive forward turn right run the rollers pick up the disks. turn to face the wall and shoot them at the three.

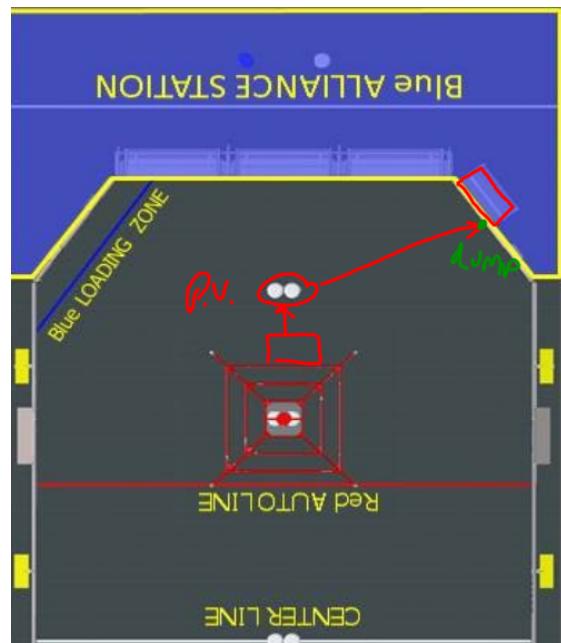

start in the middle front of the pyramid shoot two turn a 180 lower the harvester. drive into the two disks run the harvester to eat the disks. then turn 180 and drive towards the last set in the front of the field run teh rollers and eat those then shoot all 4 into the 3 slot.

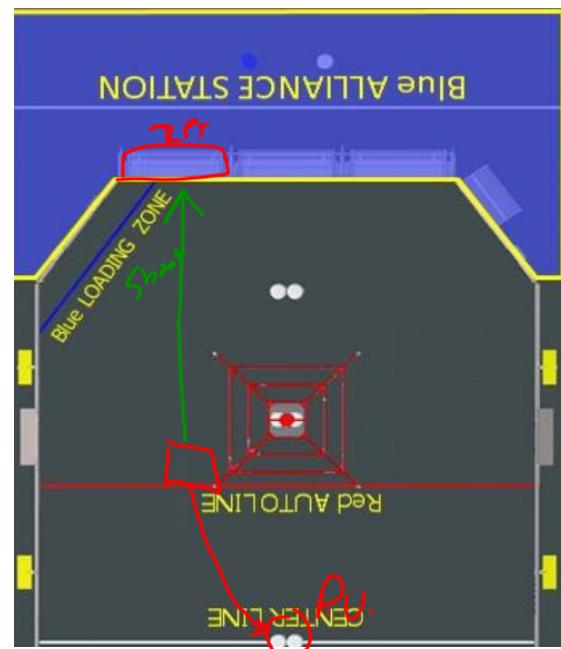

take original 3 dump
them in the one spot.

run harvester then drive
forward pick up 2 disks
then run shooter and aim all
four into the three pointer.

start in the square lower
harvester drive forward grab
the two disks turn to the 1 slot
and shuffle them i with the
shooter.

start at the back left corner
of the pyramid shoot three
into the 2 then do a 180
turn lower the
harvesterdrive back to the
disks on teh center line
with the rollers running
save those disks until the
match starts
